Re: Psiber Data Systems WireXpert WX-4500 Approval Letter

Leviton Network Solutions, a division of Leviton Manufacturing Co., Melville, NY, has evaluated and approved the Psiber Data Systems WireXpert WX-4500 instrument for use in certifying structured cabling installations that qualify for the Leviton Extended Product and Performance Warranties. These warranties are issued on behalf of our certified contractors in conjunction with the terms and policies of the Leviton Network Solutions certified contractor program.

The Psiber Data Systems WireXpert WX-4500 was able to meet or exceed all necessary testing and certification requirements for TIA 568-C series standards, ISO standards and Leviton's own requirements for certification instruments approved for our warranty program.

Regards,

David Rumpakis, RCDD
